

# SLP Series

## Folding Tri-Plane Land Leveler

Model Number	Width x Length	Front Wheels	Approx HP	Weight Lbs
SLP 20DSF	20'x40'	Dual Steel	200-260	9,250
SLP 20QRF	20'x40'	Quad Rubber	200-260	8,850
SLP 22DSF	22'x40'	Dual Steel	220-280	9,360
SLP 22QRF	22'x40'	Quad Rubber	220-280	8,960
SLP 24DSF	24'x40'	Dual Steel	240-300	9,470
SLP 24QRF	24'x40'	Quad Rubber	240-300	9,070

The SLP Series Tri-Plane Leveler offers the best characteristics of traditional Schmeiser performance with the versatility and efficiency of an easily road transportable 11' wide unit. Available in widths up to 24', the SLP covers more acres per day for increased productivity – with less time, labor and fuel costs.

- Heavy gauge construction adds more pounds for longer life and dependability.
- Bucket wings and rear steel wheels easily fold for transport into an 11'0" width.
- Ideal for any application: the SLP Series is available in 20', 22' and 24' widths

Schmeiser quality is built in:

- 1/2" x 6" reversible bucket blades.
- 3" hardened steel main pivot shafts with heavy-duty wear-resistant 3" thrust bearings.
- 1-11/16" triple lipped flange bearings on all steel wheels for easy service.
- Smooth rolled bucket design for optimal soil flow and minimal resistance.
- Over-sized flotation rubber tire transport.
